NOTES & NEWS

Manifest the Best

You've set a goal for the new year. Now what? It's time to manifest the results you want. While some descriptions of manifestations may sound a little out there, at its core, this self-help method is simply taking small steps every day to achieve your goal. Common manifestation techniques include making a vision board, practicing gratitude, journaling or meditating to focus your thoughts.

Decorate With String Lights

You may have started seeing little strings of lights year-round, instead of just during the holidays. They are the latest thing in home décor. They're an easy way to add ambience to an accent wall or around windows, doorways and mirrors. Create a focal point by running them over your headboard or along some shelves. You can even DIY new centerpieces by filling a glass bottle or jar with battery-operated fairy lights. You'll find string lights in all sorts of shapes and sizes, so grab a box and some adhesive tabs and get to jazzing up your home.

Wok This Way

Most commonly associated with stir-frying, the cooking pan called a wok has many uses and is one of the best ways to prepare food. The wok's tall, sloping sides create both a "sear zone" on the bottom, giving ingredients more flavor, and a "steam zone" throughout the rest of the pan, helping food cook quickly. The larger surface area makes a wok the ideal vessel for one-pan recipes or cooking for a crowd.

Protect Your Privacy Online

Data Privacy Day on Jan. 28 reminds us how important it is to keep our personal information secure, especially in this digital age. Use these tips to protect your data online:

- On all your devices, keep apps and software up-to-date.
- Use long, unique passwords for different accounts. Change them occasionally, or whenever there's a security breach.
- Enable multi-factor authentication for important accounts like banking and social media.
- Turn off location and activity tracking on mobile apps, and regularly clear cookies on your browser.

Self-Care Corner: Childlike Comfort

The yoga position called "child's pose" is a classic way to ease stress. It's one of the first poses learned by beginners and is often used to rest between more complex moves. Begin on your hands and knees, then sit back on your heels while bending forward, resting your head on either your knees or the floor. You can extend your arms in front of you or keep them relaxed by your thighs. Slowly breathe in and out, letting tension drain away.
