From "Sunflowers" to "The Starry Night," Vincent Van Gogh's masterpieces are among the most famous paintings in the world. Eat Green on March 17

This year on St. Patrick's Day, add in a dose of fun by challenging yourself to eat mostly green foods for the day. Some examples of dishes or drinks to try are green smoothies, green tea, broccoli nuggets, guacamole, spinach or zucchini noodles, matcha popcorn or green velvet cupcakes. The possibilities are truly endless and probably yummier than you expect.

Self-Care Corner: Dose of Daylight

Did you know sunlight is a natural mood booster? As spring starts, take advantage of longer daylight hours and schedule time for sunshine, whether it's eating lunch outdoors or going for a walk after dinner. Research shows that letting sunlight hit your eyes can raise levels of serotonin, which helps keep you calm, and regulate your sleep cycle.
